

Elevators, Escalators, and Lifting Devices Package

Drive safety, efficiency, and compliance

ASME's Elevators, Escalators and Lifting Devices Standards package provides a comprehensive solution for the many roles involved in this equipment's design, manufacturing, construction, installation, operation, inspection, testing, maintenance, alteration, and repair. By subscribing to this package your company gains access to:

- Significant savings on 15 essential ASME standards
- Key guidance and best practices across new technologies
- New content alerts that can help you maintain compliance
- Essential tools for search, collaboration, reporting, and more

Access a comprehensive and collaborative solution

- Investing in a subscription is more cost effective than purchasing individual standards
- Subscriptions provide 24/7 access to the many roles and areas across an organization
- Teams can easily access, share, and review information simultaneously
- Empower your company to work more collaboratively, effectively, and efficiently

Keep pace with the latest technologies

- ASME's standards incorporate the latest tools and technologies being used across industry
- These progressive standards help facilitate adoption by providing essential guidance
- Companies gain access to established methodologies for implementing new technologies
- Discover the latest technologies that can help enhance your company's business

Drive compliance across your organization

- Innovations in technology and shifting societal interests lead to new standard requirements
- Access to the latest standards enables companies to stay up-to-date on new requirements
- Real-time alerts of new editions help organizations to be proactive and plan ahead
- Help your company avoid potential fines, business interruptions, or more costly incidents

Minimize risk by subscribing to widely adopted standards

- ASME's standards are widely adopted around the world
- Local, regional, and national regulators closely monitor new requirements
- Subscribing to our standards package provides 24/7 access to the latest standards
- Provide access to the resources your company needs, anytime and anywhere
